The Lubrication Performance Company

TNT-3K™ Premium Diesel Additive

DESCRIPTION:

TNT-3K is a multi-purpose diesel package giving significantly enhanced power, performance and protection to both on and off road diesel fuels, as well as biodiesel blends. **TNT-3K** is designed to protect against moisture and prevent formation of bacteria and algae, commonly associated with biodiesel and ULSD. This will also improve storage stability.

USES:

TNT-3K can be used in both on and off road equipment. TNT-3k will control deposit formation in both new and old equipment. It contains a detergent package that will clean dirty injectors and prevent injector sticking in the newer diesel engines. **TNT-3K** will improve the cetane number by as much as 2 to 3 numbers, (Higher cetane numbers can be achieved by increased concentration levels), giving equipment operators increased power and performance.

By using TNT-3k on a regular basis, operators will notice an increase in efficiency and fuel economy by as much as 5%.

BENEFITS

TNT-3K provides the following benefits:

- * Contains a cetane enhancer to improve fuel power and fuel economy
- * Improves lubricity
- * Improves oxidative stability
- * Contains detergents to reduce deposits
- * Dispersants reduce problems with moisture
- * Inhibits rust and corrosion
- * Stabilizes diesel fuel
- * Helps prevent algae and bacteria.

APPLICATION:

TNT-3K Treatment ratio is 1 gallon per 3000 gallons of diesel fuel.

SPECIFICATIONS:

Density	7.25 lbs./gal
Pour Point	<-30° F
Flash Point	115° F
Appearance	Clear, light amber liquid; aromatic odor

- This diesel fuel additive complies with the federal low sulfur requirements for use in on and off diesel equipment.
