The Lubrication Performance Company

TNT-1.5K™

Premium Diesel Additive with Anti-Gel

DESCRIPTION:

TNT-1.5K is a multi-purpose diesel package giving significantly enhanced power, performance, and protection to both on and off road diesel fuels. TNT-1.5K improves the cold filter plugging point of middle distillate fuels by modifying and dispensing wax crystals.

USES:

TNT-1.5K provides the following benefits:

- * Reduces plugging of lines, filters, strainers and nozzles
- * Improves anti-gel of diesel
- * Contains a cetane enhancer to improve fuel power and fuel economy
- * Improves lubricity
- * Contains L-10 additive
- * Contains detergents to reduce deposits
- * Dispersants reduce problems with moisture
- * Inhibits corrosion
- * Stabilizes diesel fuel

APPLICATION:

TNT-1.5K Treatment ratio is 1 gallon per 1500 gallons of diesel fuel.

SPECIFICATIONS:

Density	7.25 lbs./gal
Pour Point	<-30° F
Flash Point	85°
Appearance	Clear, light amber liquid; aromatic odor
