## ***TNT-3K™ WINTER FORMULA*** ***Premium Diesel Additive with Anti-Gel***

### **DESCRIPTION:**

**TNT-3K Winter Formula** is a multi-purpose diesel package giving significantly enhanced power, performance and protection to both on and off road diesel fuels. **TNT-3K Winter Formula** will increase cetane rating and eliminate moisture. **TNT-3K Winter Formula** improves the cold filter plugging point of middle distillate fuels by modifying and dispensing wax crystals.

The sulfur content of this diesel fuel additive does not exceed 15 ppm. This diesel fuel additive complies with the federal low sulfur content requirements for use in diesel motor vehicles and no road engines

### **USES:**

**TNT-3K Winter Formula** provides the following benefits:

- \* Reduces plugging of lines, filters, strainers and nozzles
- \* Improves anti-gel of diesel
- \* Contains a cetane enhancer to improve fuel power and fuel economy
- \* Improves lubricity
- \* Contains additive to meet Cummins L-10
- \* Contains detergents to reduce deposits
- \* Dispersants reduce problems with moisture
- \* Inhibits corrosion
- \* Stabilizes diesel fuel

### **APPLICATION:**

**TNT-3K Winter Formula** Treatment ratio is 1 gallon per 3000 gallons of diesel fuel.

## **SPECIFICATIONS:**

Density	7.25 lbs./gal
Pour Point	<-30° F
Flash Point	115°
Appearance	Clear, light amber liquid; aromatic odor
